## 1. SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies which have been adopted in the preparation of this financial report are:

## (a) Basis of Accounting

The budget has been prepared in accordance with applicable Australian Accounting Standards (as they apply to local government and not-for-profit entities), other mandatory professional reporting requirements, the Local Government Act 1995 (as amended) and accompanying regulations (as amended). The budget has also been prepared on the accrual basis under the convention of historical cost accounting.

## (b) The Local Government Reporting Entity

All Funds through which the Council controls resources to carry on its functions have been included in the financial statements forming part of this budget.

In the process of reporting on the local government as a single unit, all transactions and balances between those funds (for example, loans and transfers between Funds) have been eliminated.

All monies held in the Trust Fund are excluded from the financial statements, but a separate statement of those monies appears at Note 16 to this budget document.

## (c) 2009/10 Actual Balances

Balances shown in this budget as 2009/10 Actual are as forecast at the time of budget preparation and are subject to final adjustments.

## (d) Rounding Off Figures

All figures shown in this budget, other than a rate in the dollar, are rounded to the nearest dollar.

## (e) Rates, Grants, Donations and Other Contributions

Rates, grants, donations and other contributions are recognised as revenues when the local government obtains control over the assets comprising the contributions. Control over assets acquired from rates is obtained at the commencement of the rating period or, where earlier, upon receipt of the rates.

## (f) Goods and Services Tax

In accordance with recommended practice, revenues, expenses and assets capitalised are stated net of any GST recoverable. Receivables and payables are stated inclusive of applicable GST.

## (g) Cash and Cash Equivalents

Cash and cash equivalents comprise cash at bank and in hand and short-term deposits that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

For the purposes of the statement of cash flows, cash and cash equivalents consist of cash and cash equivalents as defined above, net of outstanding bank overdrafts. Bank overdrafts are included as short-term borrowings in current liabilities.

## 1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

## (h) Trade and Other Receivables

Trade receivables, which generally have 30 - 90 day terms, are recognised initially at fair value and subsequently measured at amortised cost using the effective interest rate method, less any allowance for uncollectible amounts.

Collectibility of trade receivables is reviewed on an ongoing basis. Debts that are known to be uncollectible are written off when identified. An allowance for doubtful debts is raised when there is objective evidence that they will not be collectible.

## (i) Inventories

### General

Inventories are valued at the lower of cost and net realisable value. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

Inventories held from trading are classified as current even if not expected to be realised in the next 12 months.

## Land Held for Resale

Land purchased for development and/or resale is valued at the lower of cost and net realisable value. Cost includes the cost of acquisition, development and interest incurred on the financing of that land during its development. Interest and holding charges incurred after development is complete are recognised as expenses.

Revenue arising from the sale of property is recognised in the statement of comprehensive income as at the time of signing a binding contract of sale.

Land held for resale is classified as current except where it is held as non-current based on Council's intentions to release for sale.

## (j) Fixed Assets

## Initial Recognition

Assets costing in excess of \$1200 are initially recognised at cost. Assets costing less than \$1200 are treated as operating expenditure. Cost is determined as the fair value of the assets given as consideration plus costs incidental to the acquisition. For assets acquired at no cost or for nominal consideration, cost is determined as fair value at the date of acquisition. The cost of non-current assets constructed includes the cost of all materials used in construction, direct labour on the project and an appropriate proportion of variable and fixed overheads.

## Revaluation

Certain asset classes may be revalued on a regular basis such that the carying values are not materially different from fair value. For infrastructure and other asset classes where no active market exists, fair value is determined to be the current replacement cost of an asset less, where applicable, accumulated depreciation calculated on a basis to reflect the already consumed or expired future economic benefits.

Those assets carried at a revalued amount, being their fair value at the date of revaluation less any subsequent accumulated depreciation and accumulated impairment losses, are to be revalued with sufficient regularity to ensure the carrying amount does not differ materially from that determined using fair value at reporting date.

## 1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

## (j) Fixed Assets (Continued)

## Land Under Roads

In Western Australia, all land under roads is Crown Land, the responsibility for managing which, is vested in the local government.

Effective as at 1 July 2008, Council elected not to recognise any value for land under roads acquired on or before 30 June 2008. This accords with the treatment available in Australian Accounting Standard AASB 1051 Land Under Roads and the fact Local Government (Financial Management) Regulation 16(a)(i) prohibits local governments from recognising such land as an asset.

In respect of land under roads acquired on or after 1 July 2008, as detailed above, Local Government (Financial Management) Regulation 16(a)(i) prohibits local governments from recognising such land as an asset.

Whilst this treatment is inconsistent with the requirements of AASB 1051, Local Government (Financial Management) Regulation 4(2) provides, in the event of such an inconsistency, the Local Government (Financial Management) Regulations prevail.

Consequently, any land under roads acquired on or after 1 July 2008 is not included as an asset of the Council.

## (k) Depreciation of Non-Current Assets

All non-current assets having a limited useful life are separately and systematically depreciated over their useful lives in a manner which reflects the consumption of the future economic benefits embodied in those assets. Assets are depreciated from the date of acquisition or, in respect of internally constructed assets, from the time the asset is completed and held ready for use.

Depreciation is recognised on a straight-line basis, using rates which are reviewed each reporting period. Major depreciation periods are:

B. 0.4	
Buildings	50 to 100 years
Furniture and Equipment	4 to 10 years
Plant and Equipment	5 to 15 years
Sealed roads and streets	
clearing, earthworks and formation	not depreciated

## NOTES TO AND FORMING PART OF THE BUDGET

## FOR THE YEAR ENDED 30TH JUNE 2011

## 1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

## (I) Investments and Other Financial Assets

### Classification

Council classifies its investments in the following categories: financial assets at fair value through profit or loss, loans and receivables, held-to-maturity investments and available-for-sale financial assets. The classification depends on the purpose for which the investments were acquired. Management determines the classification of its investments at initial recognition and, in the case of assets classified as held-to-maturity, re-evaluates this designation at each balance date.

(i) Financial assets at fair value through profit and loss
Financial assets at fair value through profit or loss are financial assets held for trading. A financial asset is classified in this category if acquired principally for the purpose of selling in the short term. Derivatives are classified as held for trading unless they are designated as hedges. Assets in this category are classified as current assets.

## (ii) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are included in current assets, except for those with maturities greater than 12 months after the balance sheet date which are classified as non-current assets. Loans and receivables are included in trade and other receivables in the statement of financial position.

## (iii) Held-to-maturity investments

Held-to-maturity investments are non-derivative financial assets with fixed or determinable payments and fixed maturities that the Council's management has the positive intention and ability to hold to maturity. If Council were to sell other than an insignificant amount of held-to-maturity financial assets, the whole category would be tainted and reclassified as available-for-sale. Held-to-maturity financial assets are included in non-current assets, except for those with maturities less than 12 months from the reporting date, which are classified as current assets.

## (iv) Available-for-sale financial assets

Available-for-sale financial assets, comprising principally marketable equity securities, are non-derivatives that are either designated in this category or not classified in any of the other categories. They are included in non-current assets unless management intends to dispose of the investment within 12 months of the balance sheet date. Investments are designated as available-for-sale if they do not have fixed maturities and fixed or determinable payments and management intends to hold them for the medium to long term.

## Recognition and derecognition

Regular purchases and sales of financial assets are recognised on trade-date – the date on which Council commits to purchase or sell the asset. Investments are initially recognised at fair value plus transaction costs for all financial assets not carried at fair value through profit or loss. Financial assets carried at fair value through profit or loss are initially recognised at fair value and transaction costs are expensed in the statement of comprehensive income. Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and Council has transferred substantially all the risks and rewards of ownership.

When securities classified as available-for-sale are sold, the accumulated fair value adjustments recognised in equity are included in the statement of comprehensive income as gains and losses from investment securities.

## NOTES TO AND FORMING PART OF THE BUDGET

## FOR THE YEAR ENDED 30TH JUNE 2011

## 1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

## (I) Investments and Other Financial Assets (Continued)

## Subsequent measurement

Loans and receivables and held-to-maturity investments are carried at amortised cost using the effective interest method

Available-for-sale financial assets and financial assets at fair value through profit and loss are subsequently carried at fair value. Gains and losses arising from changes in the fair value of the financial assets at fair value category are presented in the statement of comprehensive income within other income or other expenses in the period in which they arise. Dividend income from financial assets at fair value through profit and loss is recognised in the statement of comprehensive income as part of revenue from continuing operations when the Council's right to receive payments is established. Changes in the fair value of other monetary and non-monetary securities classified as available-for-sale are recognised in equity.

## Impairment

Council assesses at each balance date whether there is objective evidence that a financial asset or group of assets is impaired. In the case of equity securities classified as available-for-sale, a significant or prolonged decline in the fair value of a security below its cost is considered as an indicator that the securities are impaired. If any such evidence exists for available-for-sale financial assets, the cumulative loss - measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that financial asset previously recognised in profit or loss - is removed from equity and recognised in the statement of comprehensive income. Impairment losses recognised in the statement of comprehensive income on equity instruments classified as available-for-sale are not reversed through the statement of comprehensive income.

## (m) Estimation of Fair Value

The fair value of financial assets and financial liabilities must be estimated for recognition and measurement or for disclosure purposes.

The fair value of financial instruments traded in active markets is based on quoted market prices at the balance date.

The fair value of financial instruments that are not traded in an active market is determined using valuation techniques. Council uses a variety of methods and makes assumptions that are based on market conditions existing at each balance date. These include the use of recent arm's length transactions, reference to other instruments that are substantially the same, discounted cash flow analysis, and option pricing models making maximum use of market inputs and relying as little as possible on entity-specific inputs.

Quoted market prices or dealer quotes for similar instruments are used for long-term debt instruments held. Other techniques, such as estimated discounted cash flows, are used to determine fair value for the remaining financial instruments.

The nominal value less estimated credit adjustments of trade receivables and payables are assumed to approximate their fair values. The fair value of financial liabilities for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the Council for similar financial instruments.

## NOTES TO AND FORMING PART OF THE BUDGET

## FOR THE YEAR ENDED 30TH JUNE 2011

## 1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

## (n) Impairment

In accordance with Australian Accounting Standards the Council's assets, other than inventories, are assessed at each balance date to determine whether there is any indication they may be impaired.

Where such an indication exists, an estimate of the recoverable amount of the asset is made in accordance with AASB 136 "Impairment of Assets" and appropriate adjustments made.

An impairment loss is recognised whenever the carrying amount of an asset or its cash-generating unit exceeds its recoverable amount. Impairment losses are recognised in the statement of comprehensive income.

For non-cash generating assets such as roads, drains, public buildings and the like, value in use is represented by the depreciated replacement cost of the asset.

At the time of adopting the budget, it is not possible to estimate the amount of impairment losses (if any) as at 30 June 2010.

In any event, an impairment loss is a non-cash transaction and consequently, has no impact on this budget document.

## (o) Trade and Other Payables

Trade and other payables are carried at amortised cost. They represent liabilities for goods and services provided to the Municipality prior to the end of the financial year that are unpaid and arise when the Municipality becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts are unsecured and are usually paid within 30 days of recognition.

## (p) Employee Benefits

The provisions for employee benefits relates to amounts expected to be paid for long service leave, annual leave, wages and salaries and are calculated as follows:

- (i) Wages, Salaries, Annual Leave and Long Service Leave (Short-term Benefits) The provision for employees' benefits to wages, salaries, annual leave and long service leave expected to be settled within 12 months represents the amount the municipality has a present obligation to pay resulting from employees services provided to balance date. The provision has been calculated at nominal amounts based on remuneration rates the Council expects to pay and includes related on-costs.
- (ii) Annual Leave and Long Service Leave (Long-term Benefits)

The liability for long service leave is recognised in the provision for employee benefits and measured as the present value of expected future payments to be made in respect of services provided by employees up to the reporting date using the projected unit credit method. Consideration is given to expected future wage and salary levels, experience of employee departures and periods of service. Expected future payments are discounted using market yields at the reporting date on national government bonds with terms to maturity and currency that match as closely as possible, the estimated future cash outflows. Where Council does not have the unconditional right to defer settlement beyond 12 months, the liability is recognised as a current liability.

## NOTES TO AND FORMING PART OF THE BUDGET

### FOR THE YEAR ENDED 30TH JUNE 2011

## 1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

## (q) Interest-bearing Loans and Borrowings

All loans and borrowings are initially recognised at the fair value of the consideration received less directly attributable transaction costs.

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the effective interest method. Fees paid on the establishment of loan facilities that are yield related are included as part of the carrying amount of the loans and borrowings.

Borrowings are classified as current liabilities unless the Council has an unconditional right to defer settlement of the liability for at least 12 months after the balance date.

## **Borrowing Costs**

Borrowing costs are recognised as an expense when incurred except where they are directly attributable to the acquisition, construction or production of a qualifying asset. Where this is the case, they are capitalised as part of the cost of the particular asset.

## (r) Provisions

Provisions are recognised when: The council has a present legal or constructive obligation as a result of past events; it is more likely than not that an outflow of resources will be required to settle the obligation; and the amount has been reliably estimated. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

## (s) Superannuation

The Council contributes to the Local Government Superannuation Scheme and the Occupational Superannuation Fund. Both Funds are defined contribution schemes.

Contributions to defined contribution plans are recognised as an expense as they become payable. Prepaid contributions are recognised as an asset to the extent a cash refund or a reduction in the future payments is available.

## (t) Current and Non-Current Classification

In the determination of whether an asset or liability is current or non-current, consideration is given to the time when each asset or liability is expected to be settled. The asset or liability is classified as current if it is expected to be settled within the next 12 months, being the Council's operational cycle. In the case of liabilities where Council does not have the unconditional right to defer settlement beyond 12 months, such as vested long service leave, the liability is classified as current even if not expected to be settled within the next 12 months. Inventories held for trading are classified as current even if not expected to be realised in the next 12 months except for land held for resale where it is held as non-current based on Council's intentions to release for sale.

## (b) Statement of Objective

In order to discharge its responsibilities to the community, Council has developed a set of operational and financial objectives. These objectives have been established both on an overall basis and for each of its broad activities/programs.

Council operations as disclosed in this budget encompass the following service orientated activities/programs:

## **GOVERNANCE**

Members of Council, civic receptions and functions, public relations, Council Elections, general governance of the Shire.

## **GENERAL PURPOSE FUNDING**

Rates, general purpose grants, interest revenue.

## LAW, ORDER, PUBLIC SAFETY

Fire prevention and administration, clearing for fire hazards, animal control, dog pound, Local law control, public security, civil emergency services, rangers.

## **HEALTH**

Food control, health inspections and provision of medical services.

## **EDUCATION AND WELFARE**

Telecentre, Rylington Park, aged and disabled services, senior citizen's services.

## HOUSING

Public and staff housing.

## **COMMUNITY AMENITIES**

Rubbish collections, recycling refuse site operations, litter control, public litter bins, abandoned vehicles, town planning control/studies, memorials, public conveniences, cemeteries

## RECREATION AND CULTURE

Public halls, swimming pool, civic centres, parks, sports grounds, community recreation programs, libraries, community arts program.

## **TRANSPORT**

Roads, footpaths, rights of way, drainage, road verges, median strips, street lighting, street cleaning, street trees, traffic surveys, traffic management, vehicle licensing.

## **ECONOMIC SERVICES**

Tourism and promotions, Festivals, building control, Caravan Park, Flaxmill camp, economic development

## OTHER PROPERTY & SERVICES

Public works overhead, plant/vehicle operations, Private works, administration costs.

In accordance with council resolutions in relation to each reserve account, the purpose for which the reserves are set aside are as follows:

## Plant & Vehicles Reserve

- to be used for the purchase of items of plant including graders, trucks, utes, sedans, rollers etc. Community Housing Reserve
- to be used for the maintenance of the Homeswest Housing Units in Forrest & Proctor Streets. Emergency Reserve
- for emergency situations during and outside working hours for example trees on roads, minor flooding, car accidents and supply of services and materials deemed necessary in an emergency. Insurance Claims Reserve
- this reserve was established following the change to "All Properties Risk Policy" and the acceptance of a \$300 voluntary excess on all claims. Funds to be utilised any year where insurance claims are excessive resulting in substantial increases in operating costs of facilities and/or services.

## Flax Mill Sheds Reserve

- to be used to fund future requirements relating to maintenance and upgrade of the large sheds (storage) at the Flaxmill complex.

## NOTES TO AND FORMING PART OF THE BUDGET

## FOR THE YEAR ENDED 30TH JUNE 2011

## Recreation Facilities Reserve

- to be used to fund improvements to the Recreation facilities and grounds.

## Commercial Reserve

- to be used for future economic development, enhancement and promotion of the district

## **Bush Fire Radios Reserve**

- to be used to fund bush fire radio changeover and future radio requirements and for the maintenance of the bush fire radio tower.

## Rylington Park Reserve

- to be used for the development of facilities at Rylington Park

## Infrastructure Reserve

- to be used for the development of Infrastructure in the Shire

## Roads to Recovery Supplementary Reserve

- to be used for R2R projects in accordance with the supplementary Grant programme

## Leave Reserve

- to be used to fund annual / long service / sick leave and redundancy requirements.

## **Depot Reserve**

- to be used to fund future requirements relating to upgrade of Depot facilities.

## **Bridges Reserve**

- to be used to fund future requirements of bridge works.

## Medical Services Reserve

- to be used to fund future medical services requirements

## **Swimming Pool Reserve**

- to be used to fund future major improvement/maintenance projects at the swimming pool

## Boyup Brook Town Hall Reserve

- to be used to fund future major improvements/maintenance at Town Hall

### **Administration Centre Reserve**

- to be used to fund future major improvements/additions to the administration centre

## **Building Maintenance Reserve**

- to be used to fund future maintenance of Shire owned buildings including Heritage buildings

## Aged Accommodation Reserve

- to be used to fund future requirements of Aged Accommodation

## Road Contribution Reserve

- to be used to set aside contributions from Developers for road development when required

## IT Reserve

- to be used to fund future I T requirements

## **Transfer Station Reserve**

- to be used to fund future upgrades to Transfer Station

## Caravan Park Reserve

- to be used to fund future upgrades to Caravan Park

## Library Furniture Reserve

- to be used to fund future Library furniture needs

Ex-Gratia Rates							700	740
Totals							1,868,265	1,783,498

All land except exempt land in the Shire of Boyup Brook is rated according to its Gross Rental Value (GRV) in townsites or Unimproved Value (UV) in the remainder of the Shire.

to meet the deficiency between the total estimated expenditure proposed in the budget and the estimated revenue to be received from all sources The general rates detailed above for the 2010/11 financial year have been determined by Council on the basis of raising the revenue required other than rates and also considering the extent of any increase in rating over the level adopted in the previous year.

The minimum rates have been determined by Council on the basis that all ratepayers must make a reasonable contribution to the cost of the Local Government services/facilities.

## NOTES TO AND FORMING PART OF THE BUDGET

## FOR THE YEAR ENDED 30TH JUNE 2011

## 9. SPECIFIED AREA RATE - 2010/11 FINANCIAL YEAR

There are no Specified Area Rates for the Shire for the 2010/2011 Financial Year.

## 10. SERVICE CHARGES - 2010/11 FINANCIAL YEAR

There are no Service Charges for the Shire for the 2010/2011 Financial Year.

I. FEES & CHARGES REVENUE	2010/11 Budget \$	2009/10 Actual \$
Governance General Purpose Funding Law, Order, Public Safety Health Education and Welfare Housing Community Amenities Recreation & Culture Transport Economic Services Other Property & Services	340 12,500 11,600 589,420 0 32,680 93,420 45,700 41,000 76,150 	41 1,945 10,382 558,551 0 20,053 97,553 36,816 32,972 58,378 17,837

## 12. DISCOUNTS, INCENTIVES, CONCESSIONS, & WRITE-OFFS

- 2010/11 FINANCIAL YEAR

11

There are no discounts, incentives, concessions or write-offs for the 2009/2010 Financial Year.

## 13. INTEREST CHARGES AND INSTALMENTS - 2010/11 FINANCIAL YEAR

An interest rate of 11% will be charged on all rate payments which are late. It is estimated that this will generate income of \$4500. Two separate option plans will be available to ratepayers for the payment of their rates:-

\* Option 1 - Payment in Full by a Single Instalment

Full amount of rates and charges including arrears to be paid on or before the 21st September 2010 or 35 days after the date of service appearing on the rate notice whichever is the later.

## \* Option 2 - Payment by four equal Instalments

First instalment to be received on or before the 21st September 2010 or 35 days after the date of service appearing on the rate notice whichever if the later and including all arrears and a quarter of the current rates. Second, third and fourth instalments to be made at two monthly intervals thereafter.

First Instalment Due Date:

Second Instalment Due Date:

Third Instalment Due Date:

Fourth Instalment Due Date:

21st September, 2010

23rd November, 2010

25th January, 2011

22nd March, 2011

The cost of the instalment plan will comprise of simple interest of 5.5% p.a. calculated from the date of the first instalment is due, together with an administration fee of \$10.00 for each notice (i.e. \$30.00 for option 2)

The total revenue from the imposition of the interest and administration charge under this option is estimated at \$10,000 and is dissected as follows:
2010/11

	Budget
Adasi	\$
Administration Charges	6,000
Interest Charges	4,000
	10,000
